ANNAPOLIS AUTHOR ANNOUNCES BOOK RELEASE
YARROW'S STORY COMPELS OTHERS TO USE FEMININE TRUMP CARDS

November 16, 2006. Annapolis, Maryland... **Yarrow**, Annapolis entrepreneur and contributing author to **The Spirit of Women Entrepreneurs** announces today the book release that focuses on her personal story to sustain extraordinary challenges and rise above them in both business and life.

"You must always have a dream and the inner knowing that you can achieve your dream regardless of your circumstances, present resources and what others think," said Yarrow.

The Spirit of Women Entrepreneurs — *Real-life Stories of Determination, Growth & Prosperity* is a compilation of 25 women entrepreneurs from across the country. **Yarrow's chapter, *Your World-View— Packing for the Entrepreneurial Journey***, provides examples and tips on three winning "feminine trump cards" to bring you, your life and your business straight to the top. ***Drawing from the Deep Well, Female Radar and Intending Your Life on Purpose*** each provides practical knowledge easily applicable to your spiritual journey and entrepreneurial success.

"When you live by these truths, no one can dissuade you of your dreams, hopes and ambitions," Yarrow said.

Cancer Survivor and Wall Street firm Vice President Debi L. Meeks of Annapolis, Maryland sums Yarrow's chapter up as "Women helping women is a tried and true method of success. Kudos to Yarrow and these entrepreneurs for sharing their trials and tribulations in an effort to help others. It is very easy to respect and learn from those who have "been there, done that." This collaborative effort is "a must read" to play the game of life with a winning hand and to master the trump cards of women's intuition."

Yarrow's chapter provides both anchor and loft as the final and 25th chapter in the book, where she challenges your current thinking and provides examples and tips to launch your new world-view.
